AMERICAN AND FOREIGN PATENTS

R. H. EDDY, Solicitor of PATENTS
(late Agent of U S. Patent Office, Washington, under the Act of 1837.)
NO. 76 STATE, OPPOSITE KILBY ST.,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries.—Caveats, Specifications, Bonds, Assignments and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse.
CHAS. MASON," *Commissioner of Patents.*

"I have no hesitation in assuring Inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and [illegible] consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.

Boston, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges.
JOHN TAGGART."

MISCELLANY.

A LUNATIC'S CUNNING.

A very laughable incident lately occurred at the lunatic asylum at Lancaster, England. A parish officer from the neighborhood of Middletown, took a lunatic to the asylum, pursuant to an order signed by two magistrates. As the man was respectably connected, a *gig* was hired for the purpose, as he was persuaded that it was merely an excursion of pleasure on which he was going. In the course of the journey, however, something occurred to rouse the suspicions of the lunatic, with respect to his real destination; but he said nothing on the subject, made no resistance, and seemed to enjoy his jaunt. When they arrived at Lancaster, it was too late in the evening to proceed to the asylum, and they took up their quarters for the night at the inn. Very early in the morning the lunatic got up and searched the pockets of the officer, where he found the magistrate's order for his own detention, which, of course, let him completely into the secret.

With that cunning which madmen not unfrequently display, he made [illegible] that he had got a sad mad fellow down at Lancaster, whom he should bring up in the course of the day; adding, "He's a very queer fellow, and his got very odd ways. For instance I should not wonder if he was to say I was the madman and he was bringing me; but you must take care of him, and not believe a word that he says." The keeper, of course, promised compliance, and the lunatic walked back to the inn, where he found the overseer still fast asleep. He awoke him and they sat down to breakfast together. "You're a very lazy fellow to be lying all day. I have had a long walk this morning." "Indeed," said the overseer, "I should like to have a walk myself after breakfast; perhaps you will go with me. The lunatic assented; and after breakfast they set out, the overseer leading the way towards the asylum, intending to deliver his charge; but it never occurred to him whether his order was safe.

When they got within sight of the asylum, the lunatic exclaimed, "What a fine house this is!"

"Yes," said the overseer, "I should like to see the inside of it." "So should I," observed the lunatic.—"Well," said the other, "I dare say they will let us look through; however, I'll ask."

They went to the door; the overseer rang the bell, and the keeper whom the lunatic had previously seen, made his appearance with two or three assistants. The overseer then began to fumble in his pockets for the order, when the lunatic produced and gave it to the keeper. "This is the man I spoke to you about, you will take care of him; shave his head and put a straight waist coat on him."

The men immediately laid hands on the poor overseer, who vociferated loudly that the other was the madman, and he the keeper; but as this only seemed to confirm the story previously told by the lunatic, it did not at all tend to procure his liberation. He was taken away and became so very obstreperous, that a strait waistcoat was speedily put upon him, and his head was shaved *secundum artem.*

Meanwhile the lunatic walked deliberately back to the inn, paid the reckoning, and set out on his journey homeward. The good people in the country were, of course, not a little surprised on finding the wrong man return; they asked with great trepidation, what he had done with——? "Done with him," said the madman, "why I left him at the Lancaster Asylum, as mad as——;" which, indeed, was not very far from the truth; for the wits of the poor overseer were well nigh overset by his unexpected detention, and subsequent treatment. Fur-other inquiry was forthwith made; it was ascertained that the man was actually in the asylum. A magistrate's order was procured for his liberation; and he returned home with a handkerchief tied around his head, in lieu of the covering which nature had bestowed upon it.

A FEW FACTS FOR WINE DRINKERS.

It is shown by the reports received at the *Foreign Office*, from the Secretaries of the British Embassies and Legations in the *wine-producing countries*, in conformity with instructions issued in 1859, by the Earl of Malmsbury, that one effect of the greatly diminished production of wine in Portugal and France *of late years*, in consequence of the grape blight, has been the adulteration of wines imported from Spain, in order to impart to them the color and flavor of French wines, and of port. The British Consul at Barcelona reported to Lumley, Secretary of Legation in Spain, that the disease had had the effect of causing a considerable quantity of wine to be exported to Cette and other French ports, "there to be mixed up with other matters, and re-shipped for consumption all over the world as choice wines." The wines exported were chiefly strong bodied and of deep color, but without any special selection of a particular class.

The Civil Governor of Tarragona informed Mr. Consul Baker that a similar trade had been carried on there, and with the like object; and the British Consul at Malaga states that large quantities of been sent coastwise to the Zerez district for mixing, in other words, in use in compounding a wine to be sold as sherry. It is further stated, in a communication from Cordova, that "a Zerez firm (Senores Gonzales, Dubont & Co., wine merchants,) have established a house here, and they buy our wines and send them to Zerez, where, I understand, they mix them with sherry and send them to London; they purchase, however, only the wine of Meriles, a district near Aquilar, which produces wine of a better quality than ours. I do not know whether you are aware that the Zerez people, last winter, bought up all the wines they could lay their hands on at Constantina, Cozalta, El Pedrozo, and other towns in the vicinity. The quantity purchased was about 125,000 arobas, and it was brought down in casks by the Constantina, oxen carts, to the *barranco de Tocino* and there put on board vessels, and carried to San Lucar. Some portion of the wine, I heard, got to Zerez in the shape of vinegar, but it is very certain a considerable portion was used in the manufacture of sherry for the London market."

Mr. Lumney observes that the wine trade of France seems to have been as much indebted to Spain for its existence during the last five or six years as that of Portugal has been; and that, although at Bordeaux as at Zeres, the stocks of old wine may be still unexhausted, though greatly diminished, there is little doubt that a large quantity of the new wine, which for five years has been manufactured in the south of France, and which has been exported to all parts of the world as French wine of the first vintages, was little else than Spanish wine mixed with French, and "doctored" to suit the market for which it was destined. He gives the following as the approved receipt for making Bordeaux out of Spanish wines: To one-third of the strong black Arragonese wine, Carinena, Ribiero de Ebro, or other of that class, the price of which is about five sous a bottle, add one-third of the light wine of Cahors, and one-third water; the requisite flavor is given to it by the addition of a little orris root, and the wine thus manufactured sells readily at fifty sous a bottle. Viscount Chelsea confirms the foregoing statements, remarking that the fraudulent practices of the French wine merchants are of two sorts, first, that which consists in adding water, which is the most generally adopted, and is the least hurtful to health: secondly, by the fabrication of wines, to which the name Bordeaux or port is given, by means of a mixture of a very small portion of those wines with other and inferior sorts, water being added, together with spirit and some coloring matter. Another, and still more culpable method of adulteration, inasmuch as it is very injurious to health, consists in what is called "sweetening" wines, that is, neutralizing the acetic acid contained in them by means of plumbago, and other similar ingredients. Mr. Fane, Secretary of Legation at Vienna, reports the existence of similar practices among the export wine merchants of that capital. Not only were the wines of Hungary, where the vine has escaped the disease, extensively substituted for those of Italy and France by the wine merchants of those countries, but wines were, and are fabricated for exportation in the manner pursued at Bordeaux. This system is said to have acquired large dimensions of late years, to the detriment of every sort of wine, both light and heavy kinds being produced in this way.

"In Austria," says Mr. Fane, "a great distinction is drawn between the adulteration of wine and its improvement, as taught by modern chemistry. The object is, by an artificial process, to develope the flavor and odor of wines, to correct the acidity of some kinds, and to enable them to keep longer. These chemical processes are warmly recommended in Austria, as the wines corrected by them are said not only to be harmless to health, but to be positive improvements in this respect on the natural *products*." He adds, however, that this method of "improving" wines is not approved of in the north of Germany. A wine merchant in Vienna has, for some years, been sending large quantities of spurious port to England *via* Hamburg, where it is said to have grown into favor under the name of Hungarian Crown wine. This wine is said to be scarcely distinguishable from real port, even by a connoisseur, and to be competing successfully with the genuine article.

ELOPEMENT IN NEW BRITAIN, CONN.—Mr. J. E. Pierpont, of New Britain, (of the firm of Bishop & Pierpont, fish and oyster dealers,) left that place on Friday, the 4th inst., for parts unknown to his friends. On the same day the wife of Mr. Francis Demming left that place for parts unknown to her husband. She told him she was going to Berlin to stay a day or two with some friends. Some transaction between Pierpont and his wife led Mr. Demming to suspect that all was not right, and he went over to Berlin in the afternoon and ascertained that his wife had not been there. She took the noon train going South. Mrs. Demming left a note for her husband saying, "Farewell, Francis." Pierpont left a wife and two children in New Haven, where he formerly resided.

DEATH OF ISABELLA JANE STEPHENS, THE DAUGHTER OF JAMES STEPHENS.—Isabella Jane Stephens died yesterday morning. She was about nine years of age, and was an only child. A correspondent who communicated the fact says:

"She did not see her father for some time previous to his execution, the circumstances of which seem to have borne heavily upon her youthful mind, and probably induced fever and death. She will be interred in the same grave with her father, designed originally for the ashes of her mother. Thus, strangely, the entire family has passed away,—the mother murdered, the father hanged for the crime, and the daughter killed by a broken heart."—*New York Express.*

THE RHODE ISLAND BOUNDARY QUESTION.—Yesterday afternoon, the hearing before the Executive Council, on this question, was resumed. Mr. Brown of Seekonk addressed the Council in behalf of the sixty voters in that part of that town which would remain in Massachusetts after the adoption of the proposed line. They all believed it would be prejudicial to their interest, as it would leave only a territory of three square miles, containing 222 persons, and a valuation of $130,000. Mr. Johnson Gardner of Pawtucket remonstrated against the acceptance of the line, which would benefit nobody but Fall River. The hearing was adjourned till the 25th inst.—*Boston Traveller.*

Washington National Monument.

WASHINGTON, Saturday, Feb. 18.

On the 22d of February it is proposed that there shall be an effort made throughout the United States to raise sufficient funds to carry on the work upon the Washington National Monument during the coming year. Citizens in every part of the country can contribute through the Postmasters of their respective towns. About a thousand Postmasters have boxes for the purpose placed in their offices, and have raised within the past four months more than $2,000.

There are nearly 28,000 Postmasters who have not been heard from, and it is to be hoped that they will cooperate with the others. If they will consent to do so, and if the returns average only $1 50 per year, or 12 1-2c. per month, the work can be kept in progress. A very slight effort made in each place throughout the country would insure the completion of the monument in a few years.

There is a box arranged in our own Post Office for this object, and we hope the above suggestion will meet with a cordial response from our citizens. Let all, on this auspicious day, contribute *something* for so worthy an object—according to their means—a dollar, dime, or even a cent—*every little helps.*

The Harper's Ferry Raid.

CHARLESTOWN, Va., Feb. 19.

Stephens and Hazlitt, the last victims of the John Brown raid, are kept in the closest confinement. Stephens says he feels more cheerful and resigned than he ever expected to be, and remarked yesterday that the consciousness of suffering in a good cause is sufficient consolation. Hazlitt is very low-spirited, and declares he would infinitely prefer the wilds of Kansas to his present position.

Large Fire in Boston.

TWO FIREMEN KILLED.

BOSTON, Feb. 19, 1860.

On Saturday night a fire broke out in the curled hair and feather establishment of Manning, Glover & Co., Nos. 49 North Market street, and 42 Merchants' row, whose loss amounts to about $20,000 fully insured.

The lower portion of the main buildings was saved. Total loss estimated between $40,000 and $50,000.

At 3 o'clock on Sunday morning, when the firemen had about closed their labors, a portion of the wall fell outward, instantly killing Charles Carter and Charles E. Danton, both highly respected members of the Fire Department. In thirty minutes both bodies were dug from the ruins shockingly mangled. Several others were injured, but not dangerously.

Carter and Danton each leaves a wife and three children.

News from Brownsville, Texas.

NEW-ORLEANS, Friday, Feb. 17.

Brownsville, Texas, advices to the 9th inst. are received. Important unpublished disclosures had been made as to the complicity of the Mexican authorities with Cortina, which, it was believed, would decide the question of war.

ABSENCE OF MIND.—Rev. Mr. B——, pastor of the Congregational Church in Gilead, on Sunday last, tackled his horse to the sleigh, took in some butter and eggs and a lot of tin ware, and started for Gorham, N. H., about ten miles distant, to dispose of the former and to have the latter mended. Arriving there, he was much astonished to learn, as he offered his produce for sale, that it was Sunday. It was with some difficulty that he was convinced of the fact. But, upon coming to the conclusion that it was Sunday, he said he would return and preach to his congregation in the afternoon.—*Portland Argus.*

LOCAL ITEMS.

Supreme Court.

This tribunal opened its sessions for Newport county, in this city, yesterday morning. The Court room was filled immediately after opening, some parts of it as densely as human being could be packed, and hundreds went away, unable to effect an entrance. The great rush was owing, probably, to a supposition that Short would be brought up for trial. This was an error of judgment, as he can have no trial, unless the Grand Jury bring in a bill or bills of indictment against him, and he, when he is arraigned, shall plead not guilty. Should all this happen, he will probably be brought up for trial Friday.

Some one ought to have the power, and probably the Sheriff does, to see that at such seasons, the Court room is properly filled. Yesterday, there were a large number of small boys in the seats, who paid no attention to the proceedings of the Court, or in fact to anything else, except whispering and eating peanuts. If boys wish to be present to see the proceedings, and inform themselves in the forms of judicial proceedings, we say most heartily—that is right. We go farther, and urge parents and guardians to take their children and young friends to the Court room, then unheeded, and what is not understood; answer all questions that the young, busy minds may raise; instil within the future men and women, a reverence for law and its administrators; do all this, and more, for it is the due of these minds. But when boys are there because they have no better place in which to eat peanuts and candy, or to while away the time in doing nothing, and disturbing others, their room is more profitable than their company, and we hope that some authority will see that such persons as are so unfortunate as to be obliged to go to Court, are not required to stand in a great press for hours, in order that this class may monopolize the seats.

We should be sorry to have our remarks construed as applying to all the boys present. Some of them were interested, and closely watched the proceedings, listening with respectful attention to the learned Chief Justice's able charge to the Grand Jury; and we have no doubt they went away deeply sensible of the protection thrown around us and our property, by the strong arm of the law, as well as with new ideas as to the extent of law. This was right. But out with all those whose room is uselessly occupied!

All the causes in which Mr. Sheffield was counsel, were continued to next term; and it was surprising to see how many there were in which he was engaged.

The morning session was spent in calling the old and new dockets, and in preparing cases for trial.

The charge of the Chief Justice to the Grand Jury, alluded to the largest number of probable cases to come before them, that has ever come under the cognizance of any one Grand Jury, within the memory of our oldest officers, if not the largest that has been brought before a Jury, since the first organization of the Court. It was remarkably clear and pointed, the language well chosen, condensed, and easy to be understood. Such a charge is of immense value to all who can hear it, whether members or not, of the legal profession.

The Court adjourned over to Thursday, it being a legal holiday to-day.

Short's Trial.

Since writing the previous article, we have been informed by Mayor Cranston, who is acting Attorney General, that there is no probability of Short's being brought up for trial, before the very last of the week.

Died.

His remains will be taken, for interment, from his late residence, Bath Road, and thence from St. Mary's Church, on Thursday next, at 3 o'clock. Friends and relatives are respectfully invited to attend, without further notice.

FOUSEL'S PABULUM VITÆ.

THE GREAT FRENCH REMEDY, possesses extraordinary properties for the speedy and permanent cure of CONSUMPTION, BRONCHITIS, COUGHS, COLDS, and all PULMONARY DISEASES.

This celebrated specific is now universally acknowledged to be infinitely superior to all other preparations for the cure of Pulmonary Disease, both from its innocent nature and its most astonishing curative properties; *it being the only remedy known that will arrest the development of Tubercles in the Lungs, or restore the vital functions of the pulmonary organs to their normal condition.* Its invaluable properties have obtained for it the highest recommendations and praise from some of the most eminent physicians and chemists in the country; while the best and surest proofs of its merits are afforded by the numerous testimonials of its great efficacy in conquering disease, which are constantly received from our most respectable citizens. Invalids in all stages of pulmonary disease should not fail to give it a trial, as it can be administered to the most delicate and feeble with perfect safety and certain relief; and we herewith insert a few testimonials for their encouragement, selected from hundreds of like import.

Certificate of Dr. A. A. HAYES, in reference to the unequalled virtues of this great discovery.

This preparation, by chemical analysis, was proved to be free from opium or any of its compounds; nor were any of the alkaloids present. It does not contain any mercurial or mineral substance, but consists wholly of volatile, diffusible agents, which afford vapors freely at a moderate temperature. Most of the substances present are efficiently used in alleviating pulmonary disease; but the device by which they are combined is new and original, and adapts the compound to inhalation, or other modes of administration.

Respectfully,
A. A. HAYES, M. D., *State Assayer,*
16 Boylston Street, Boston, Dec. 19, 1857.

TESTIMONIAL from the Assistant Superintendent of Health:

BOSTON, Oct. 5, 1859.

Sir:—It affords me great pleasure in recommending to those troubled with Pulmonary Complaints the use of Fousel's Pabulum Vitæ; and my own experience has shown that for Coughs and Colds it possesses qualities of great merit, and I would most cheerfully recommend its use to those troubled with the above complaints, so common to our climate.

Respectfully yours,
(Signed) DANIEL B. CURTIS,
To F. J. LAFORME. Room 12, City Hall.

F. J. LAFORME, Esq.:

Dear Sir—This may certify that I have used *Fousel's Pabulum Vitæ*, and I consider it the best article that I have ever used for pulmonary complaints. My wife has used it for severe colds, and its effect was magical; and I have no objection to your referring in any way to me that you deem expedient.

I have given the above named a fair trial, and with confidence advise all that are afflicted with colds or pulmonary complaints to try it.

DR. MATTISON'S
REMEDIAL INSTITUTE,
—FOR THE TREATMENT OF—
Special Diseases,
No. 28 Union St., Providence, R. I.

Circulars giving full information with references and testimonials, sent by mail. Also a Pamphlet on Diseases of Women with observations on Private and Chronic Maladies generally, sent free by enclosing a stamp to Dr. H. N. MATTISON as above.

Dr. M. is a thoroughly educated physician of nineteen years practice, giving his whole attention in the above named diseases. Persons at a distance, therefore, having any important and difficult case in this specialty will save much time and expense by applying either personally or by letter, to the REMEDIAL INSTITUTE.

N. B.—Accommodations for patients from abroad wishing to remain in the city for a short time under treatment.

A WORD TO INVALIDS.

All who have any serious or troublesome disease will very naturally seek advice somewhere, and this leads me to say a few words on the *choice of a physician*. And first, *let all quacks, impostors and humbugs alone*. If you have an intelligent physician in your vicinity apply to him immediately, and follow his directions explicitly, and for a sufficient length of time, and he will probably cure you; if not, then apply to one who makes your disease a *specialty*, for no physician in general practice, no matter how eminent, can treat a given disease, or class of diseases, as succesfully as one of the same ability who makes such diseases a *specialty*, and devotes his whole attention to them. Educated physicians hitherto have stood aloof from making private diseases a specialty, and hence they have been monopolized by quacks.— The fear of losing caste in society, or of being classed among charlatans by the profession, has too long stood in the way of this most desirable result. What disgrace is there in treating a class of diseases specially that all physicians treat in general practice? Ricord of Paris, and Acton of London, both make *Private Diseases* a specialty, and yet their fame is an enviable as it is world-wide. It is in fact the only remedy for one of the most heinous and destructive systems of quackery in private diseases as practiced in all the larger cities throughout the country.— But to return I said let quacks and impostors alone. Their advertisements fill the newspapers and are well calculated to deceive the inexperienced, made up as they are of the most extravagant *pretensions*, but without a shadow of *evidence* of the truth of what they say. Advertising in itself is no sin, but *deceptive* advertisements are an abomination; and no advertising physician is entitled to *any confidence whatever* who does not give to the public the most undoubted guarantee both of his honesty and his skill.

In offering my services in a speciality which has heretofore been almost exclusively in the hands of impostors, I ask no man to employ me who is not fully convinced that I shall treat him courteously, deal honorably and with the strictest fidelity, and give him the best possible chance for a speedy and permanent cure. H. N. MATTISON,
oll d w tf No. 28 Union st., Prov. R.

Blood Food!

Dr. Bronson, having been so far reduced by consumption, as to be considered beyond all hope of recovery by the most eminent of the medical profession, and also by himself— a regular physician of twenty years' practice —as a last resort, conceived the idea of ANALYZING THE BLOOD, and applying the subject of physiology to the more immediate connection, and effect of the state of the blood upon the health and system. The result has been the production of this "BLOOD FOOD," from which, Dr. Bronson was restored to perfect health, Within six months after its introduction, over two thousand consumptives were effectually cured by it. If you have any complaints of a consumptive tendency, *Coughs, Cold, Head-ache, Palpitation of the Heart, Loss of appetite, or pain in the side*, lose no time in procuring a bottle of the "BLOOD FOOD." If you are suffering from *Nervous Dibility*, or your *sleep is broken and disturbed*, if your *Spirits are Depressed* or your *Organs relaxed*, you will find in this an unfailing remedy, by commencing with *ten drops*. If your *Liver* is torpid or disease in any manner whatever *one or two bottles* will be sure to invigorate, and bring it into lively and healthful action. In the most inveterate cases of *Dyspepsia*, the patient can here find the most efficient and grateful relief. A benefit is always experienced after taking *only one bottle*. In *Male or Female Complaints and Weakness*, the sufferer, after trying other remedies in vain, may rest assured, that a certain cure will result from the use of *two or three bottles*. The "BLOOD FLOOD" is effectual in all cases of *Eruptions, Salt Rheum, Scrofulas* and other like complaints, *Pale and emaciated children and adults* are immediately benefited by its use. It gives strength to the body and color and beauty to the skin. *Physicians of all schools* are using it with wonderful success. For full directions, see circulars:

Price $1 per bottle.

Mothers!

In presenting you with DR. EATON'S INFANTILE CORDIAL, we desire to state its superiority over every nostrum that nurse or quack has heretofore offered you,

First—It is the preparation of a regular physician, who is well qualified from much experience in infantile complaints to prescribe for them. Second—It is entirely free from paregoric or opiate of any kind, and consequently relieves by removing the suffering of your child, instead of deadening its sensibilities. Thirdly—It is put up with great care, as a comparison of it with any other article for infantile complaints will show; the very roots from which it is distilled being from the forests under the direction of Dr. Eaton, many of them by his own hands. Fourthly it is perfectly harmless and cannot injure the most delicate infant, and is a certain cure and relief in all the following cases, which is its chief merit over every other preparation, viz: FOR ALL COMPLAINTS ATTENDING TEETHING; such as DYSENTERY, COLIC, &c.; also, for softening the gums and relieving pain. For regulating the bowels it is unequalled. For Cold in the Head it is a sure relief. For CROUP, the most fatal and trying of diseases, it can be relied on with perfect confidence; and being a powerful anti-spasmodic in all cases of convulsion or fits we earnestly recommend you to lose no time in procuring it. Lastly—it costs so much more than other preparations of the kind, that we cannot afford such long advertisements as can those whose whole expense is their advertising; for the same reason, it commends itself as the most reliable to all mothers. In all cases, the directions wrapped around each bottle, must be strictly followed. Price, 25 cents per bottle.

THE
GREAT WONDER
OF THE NINETEENTH CENTURY.

PROFESSOR WOOD'S HAIR RESTORATIVE.

Says the St. Louis (Mo) Democrat: Below we publish a letter to Dr. Wood of this city, from a gentlemen in Maine, which speaks glowingly of the superior merits of his hair tonic. Such evidence must have its effect, when coming from a reliable source. If certificates are guarantees of truth, the Dr. needs no encomiums, nor useless puffery from the press:

BATH, Maine, Jan. 29, 1859.

Prof. O. J. Wood & Co:

GENTLEMEN: Having my attention called a few months since to the highly beneficial effects of your hair restorative, I was induced to make application of it upon my own hair, which had become quite grey, probably one-third white; my whiskers were of same character. Some three months since I procured a bottle of your hair restorative, and used it. I soon found it was proving what I had wished. I used it about a week. I have since procured another bottle, of which I have used some. I can now certify to the world that the gray or white hair has totally disappeared, both on my head and face, and my hair has resumed its natural color, and I believe, more soft and glossy than it has been before for twenty-five years. I am now sixty years old; my good wife at the age of fifty-two has used it with the same effect.

The above notice I deem due to you for your valuable discovery. I am assured that whoever will rightly use, as per directions, will not have occasion to contradict my statements, I am a citizen of this city and a resident here for the last fifteen years, and am known to nearly every one here and adjoining towns. Any use you may make of the above, with my name attached, is at you service, as I wish to preserve the beauties of nature in others as well as myself. I am, truly yours, A. C. RAYMOND.

BALTIMORE, Jan. 23, 1858.

WOOD'S HAIR RESTORATIVE.

Professor Wood—Dear Sir: Having had the misfortune to lose the best portion of my hair, from the effects of the yellow fever, in New Orleans in 1851, I was induced to make a trial of your preparation, and found it to answer to the very thing needed. My hair is now thick and glossy, and no words can express my obligations to you in giving to the afflicted such a treasure.

FINLEY JOHNSON.

The undersigned, the Rev. J. K. Bragg, is a minister in regular standing and pastor of the Orthodox Church at Brookfield, Mass. He is a gentleman of great influence and universally beloved. WM. DYER.

BROOKFIELD, Jan. 12, 1858.

Professor Wood—Dear Sir: Having made trial of your Hair Restorative, it gives me pleasure to say, that its effect has been excellent in removing inflamation, dandruff and a constant tendency to itching with which I have been troubled from my childhood; and has also restored my hair which was becoming gray, to its original color. I have used no other article with anything like the same pleasure or profit. Yours truly,
J. K. BRAGG.

The Restorative is put up in Bottles of 3 sizes, viz: large, medium and small; the small holds 1 1-2 a pint, and retails for one dollar per bottle; the medium holds at least twenty per cent more in proportion than the small, retails for two dollars a bottle; the large holds a quart, 40 per cent. more in proportion and retails for $3 a bottle.

"What are you doing with that lumber?" asked a steamboat captain to an Irishman, who was staggering towards the boat beneath the weight of a huge plank, just as the bell was ringing for the last time. "What am I a doing, sure wasn't it yourself as said, all ye's as going, 'get aboard' and isn't this an illegant one entirely?" said the Hibernian triumphantly, amid the laughter of the spectators. The captain gave him his board and passage that trip.

A CARD TO THE LADIES.

Dr. Dupongà's Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficacious in correcting, regulating, and removing all obstruction from whatever cause.

All medical men know, as well as many others, that no female can enjoy good health unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive.—Price $1 per box. For sale at 132 Thames street, corner Church street, and at 12 Washington Square, opposite State House. Orders for the trade so addressed will be supplied at lowest manufacturer's prices. Ladies by enclosing $1 to STURGISS & CO., Box 891, Newport Post Office, can have the Pills sent (confidentially) by mail to any part of the city or country. aug26 1y

HOWARD ASSOCIATION.

PHILADELPHIA.

A Benevolent Institution, established by special endowment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.

THE Howard Association, in view of the awful destruction of human life, caused by sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their consulting Surgeon, as a Charitable Act worthy of their name, to open a Dispensary for the treatment of this class of diseases in all their forms, and to give Medical Advice Gratis, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty to Furnish Medicines Free of Charge. It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their annual report upon the treatment of Sexual diseases, for the year ending July 1st, 1858, expresses the highest satisfaction with the success which has attended the labors of the consulting Surgeon in the cure of Spermatorrhœa, Seminal Weakness, Impotence, Gonorrhœa, Gleet, Syphilis, the vice of Onanism or self abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves with renewed zeal to this very important and much despised cause.

An admirable Report on Spermatorrhœa, or Seminal Weakness, the vice of Onanism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the consulting Surgeon, which will be sent by mail (in a sealed envelope) free of charge, on the receipt of two stamps for postage.

Address, for Report or treatment, Dr. George R. Calhoun, Consulting Surgeon, Howard Association, No. 2 South Ninth street, Philadelphia, Pa. By order of the Directors.

After May 1st, 1860, at 501 BROADWAY, two doors from the St. Nicholas Hotel.

The Stereoscope is the most *instructive, interesting, entertaining, amusing,* and *exciting* of modern inventions.

None are *too young,* none *too old,* none *too intelligent,* none *too uneducated,* to acknowledge its worth and beauty.

No home is complete without it, and it must and will *penetrate everywhere.*

It presents to your view every part of the world, in all the *relief, boldness, perspective,* and *sharpness of detail,* as if you were on the spot.

Photographers are everywhere exploring Europe, Asia, Africa, America, in search of the grand and the beautiful, and *the results of their skill are constantly enriching our stock.*

We have an immense variety of paper Views of Scenes in Paris, London, England, Scotland, Ireland, Wales, France, Belgium, Holland, Switzerland, Spain, The Rhine, Versailles, St. Cloud, Fontainebleau, Tuilleries, Italy, Turkey, Egypt, Athens, the Holy Land, China, India, Crystal Palace, also Groups Historical, amusing, marriage scenes, breakfast scenes, pic-nics, statuary, etc. etc. An *exquisite assortment of Illuminated Interiors* of Palaces, Churches, and Cathedrals of France, Italy, etc., etc. The effect of these illuminated views is *most remarkable.*

EVERY GENTLEMAN OF WEALTH AND REFINED TASTE should have in his drawing room some of our *exquisite views on glass,* with a revolving stereoscope, showing 12, 25, 50 or 100 views. Nothing can be more fascinating, and one can offer no greater treat to a friend fond of the picturesque and the beautiful.

Anthony's Instantaneous Stereoscope Views are the latest Photographic wonder. They are taken in the *fortieth part of a second,* and everything, *no matter how rapidly it may be moving,* is depicted as sharply and distinctly as if it had been perfectly at rest. This gives an additional charm, for to the beauties of inanimate nature is *added the charm of life and motion.* The process is a discovery of our own, and being *unknown in Europe,* we receive from London and Paris large orders for Anthony's Instantaneous Views of American life and scenery.

Among other things we have just published Stereoscopic Illustrations of the Scene of the FULTON STREET PRAYER MEETINGS, in which many hearts feel an interest. The particulars of this will be found in our catalogue.

OUR CATALOGUE of subjects and prices will be forwarded to any address on receipt of a stamp.

NEW Photographic Gallery, at No. 144 Thames street.—Winter Arrangement. J. D. Fowler, for five seasons located at No. 10 Downing's Row, Touro St., has leased for a term of years the rooms formerly occupied as the office of the *Daily News,* at 144 Thames St., and at considerable expense has adapted them to the production of all styles of Photographic pictures. It will be the endeavor of the proprietor to make *unexceptionable pictures at prices which will place them within the reach of all.* The public are invited to visit these rooms, and inspect the new style of working arrangements, sky light, &c. Look for 144 Thames St., up *only one* flight of stairs. d13tap1.

INSTANTANEOUS VIEWS.—All the Poetry of Motion, every dancing wave or tiny ripple, the hurrying or the expectant crowd that throng and rush along thoroughfares caught unawares in all unstudied attitudes of life, act and motion. American skill has been the first to accomplish it, as you will readily ascertain by calling at Williams' Stereoscopic Rooms and examine five thousand or more moving objects.

All kinds of Stereoscopic Views for sale at Williams's Rooms Cheap for Cash. Inquire for Williams' Stereoscopes.

CAUTION.

Persons living at a distance should be extremely cautious of whom they order Lottery Tickets or Certificates of Packages of Tickets. The country is flooded with bogus and swindling Lotteries. Every inducement is held out to get persons to invest money in them—Capital Prizes of from $20,000 to $40,000 head their schemes—with Tickets at One Dollar.—$100,000 Capital Prizes are offered, Tickets $5. All such, in every instance, are frauds, and if money is sent to them for Tickets, it is so much thrown away without the shadow of a chance of getting a prize. Beware of all Lotteries where the Capital Prize is unusually large in comparison to the price of Tickets. In every instance where large Prizes are offered for a small cost of Tickets, put it down for a certain fraud.

☞ All orders addressed to France, Broadbents & Co., Wilmington, Del., will meet with prompt attention, and the printed official drawings sent as soon as over.
